SuperLube 200™

Ultra-High Efficiency, Versatile Pump Primer and Pumping Aid

Description:

Our new SuperLube 200™ liquid primer is designed to give the pump operator the option of getting **2 primes** from the new larger 5 ounce bottle for most pumping jobs. SuperLube 200™ is a state-of-the-art liquid concrete pump primer uniquely formulated to provide the concrete contractor with a cost-effective replacement for premium priced grout, primer slurries or bagged cement primers. SuperLube 200™ is the premier concrete pumping aid for use in concrete boom trucks, concrete line trucks, and portable concrete

pumps. It is environmentally safe and compatible with all concrete materials and contains no bentonite, cementitious materials, soaps or air entraining agents.

Advantages:

- *Liquid mixes into solution much faster than it's inferior powdered counterparts*
- *Reduces plugging problems versus other methods*
- *No need for expensive ready-mixed priming grout*
- *Increases ease and range of pump ability*
- *Decreases wear on equipment*
- *Easily introduced into pumping equipment*
- *Decreases horsepower required for pumping*
- *Reduces friction and line pressure*
- *Packaged in easy-to-handle 5 ounce bottles*

Directions:

Shake well before opening. Pour 1/2 bottle or whole bottle (depending on your need) of SuperLube 200™ into 5-10 gallons of water and mix for at least 5 minutes. It is possible to mix the product directly in the hopper. When the water becomes thick, you may begin priming. It is recommended that testing be done to determine the suitability of SuperLube 200™ to your concrete applications.
